PREMIERPLUS

PremierPlus.

Tried and tested
cost efficiency
and reliability...

Affordable, tried and tested solutions can often be at the top of your list when looking for a hot water solution in your home.

Our team at Heatrae Sadia understands this, which is why we developed PremierPlus – our successful core range of hot water cylinder solutions.

UK designed, engineered and manufactured PremierPlus comes in multiple variants with a 30 year parts and labour warranty.*

*T&Cs apply please visit heatraesadia.com for details of full product warranties.

Flexible to a range of domestic setups, PremierPlus heats, stores and delivers piping hot water at mains pressure, across multiple outlets. This removes the need for an old fashioned and unreliable hot water storage tank and cistern tank. It is replaced with a single floor-mounted unit – suitable to a variety of installation locations.

Whether you're installing a new bathroom or kitchen, simply updating in part or designing your new build, it's vital that you review your hot water system to ensure it supports your modernised outlets and needs. PremierPlus is at the heart of a reliable and efficient hot water system.

Being without hot water is an inconvenience none of us want to experience. PremierPlus is uncomplicated and considered in its design, making it easier and faster to install.

Our SystemFit model comes pre-plumbed and pre-wired making it even quicker to fit, speeding up your route to piping hot water.

PremierPlus and PremierPlus Solar are built to the highest standard from Duplex stainless steel, which is corrosion resistant, even in aggressive water areas. The simple yet modern design of the PremierPlus range delivers a convenient and reliable modern solution to hot water needs in your home.

Find out more about Heatrae Sadia products at heatraesadia.com

PREMIERPLUS
Cost effective reliability

The PremierPlus range delivers hot water when and where you need it most.

PREMIERPLUS
Built to the highest standards PremierPlus units offer exceptional corrosion resistance and long-life expectancy.

PREMIERPLUS SYSTEMFIT
Factory-fitted plumbing and wiring for use with a heat only boiler, for speedy installation.

PREMIERPLUS SOLAR
Renewable technology

Delivering powerful mains pressure showering and fast filling baths, PremierPlus Solar works with solar panel technology to make the most of renewable energy.

We designed a heating coil specifically for PremierPlus Solar which maximises heat input and efficiency from the solar energy captured. Supplying you with as much as 60% of your hot water needs during the year and up to 100% during summer months* PremierPlus Solar also lowers your overall running costs.

**Savings may vary depending on type of solar system used, location and usage patterns.*
